Maa Durga Industries

A CONCISE PRESENTATION:

Maa Durga Industries (MDI) was established with the sole motivation of giving a universally perceived quality help and guaranteeing that a wide range of electrical panels, transformers, servo voltage stabilizers, HT breakers, and switchgear items are provided. We offer thorough electrical design services, including electrical plans, drafting, and board plans. Our extensive experience in delivering administrations to various industry verticals, including modern, business, and private segments, has given us the advantage of taking special care of our clients' various turnkey requirements. The organisation has been associated with a few renowned ventures in the past during this time of development. MDI has laid out serious areas of strength for its clients and procured appreciation for its way of dealing with nitty-gritty designing, planning, drawing, execution, activity, and support (AMCs). We are furnished with an expert design group to deal with each part of the task. From offering to the execution of activities, we track each angle, including arranging, obtainment, and execution, for fruitful fulfillment. We have been serving and ad libbing our administrations in common in electrical, IT, and telecom.

A Vision and Mission:

To be India's driving organisation Clients and accomplices will consider us basic to their prosperity. We will meet our client's prerequisites and follow through on each responsibility we take.

Values:

In spite of the fact that we are an exclusive organisation, we are constrained by the dynamic administration of representatives and directed by solidly held values.

When you choose professional results, choose a professional engineer.

Our Services:-

- Layout Planning, Work Execution
- Commercial, Residential, Industrial, Wiring
- Transformer Installation & Commissioning
- DG Set Installation & Commissioning
- HT & LT Panel Installation & Commissioning
- Solar Power Plant & Solar Grid
- Earthing work
- Lightening arrestor installation
- Water testing services for STP, ETP and WTP plant
- Oil testing BDV, flash point, moisture content.
- Oil dehydration of transformers and servo.
- Industrial Quality training programme
- In house training programme of Instrument Calibration,
- Problem solving tools, PPAP documents, Kaizen, 5S.

When you choose professional results, choose a professional engineer.

Electrical AMCs

Why Electrical Annual Maintenance Contract (AMCs) required?

- HT/ LT Panel
- Switchgear & Protection
- Numerical Relay
- VCB/OCB/SF6 CB
- Transformer & Servo
- TAP Changer & RTCC Panel
- APFC Panel
- ACB/MCCB/MPCB/MCB
- DG Set, DG Sync. Panel
- WTP, ETP
- AC/DC Motor
- Battery bank
- UPS/SPMS
- CT/PT/CVT/CBCT
- RVT

When you choose professional results, choose a professional engineer.

Maa Durga Industries

Our Product Line Includes:-

Distribution Transformer

OLTC Transformer

Corrugated Tank Transformer

Servo voltage Stabilizer

Dry type Servo

Dry type Transformer

Indoor Type VCB

Outdoor type VCB

Ring Main Unit

Transformer & VCB Spare parts

When you choose professional results, choose a professional engineer.
